privacy-v1 / EN / DEMO

**FICTIONAL STORE - TEACHING EXAMPLE ONLY**

Effective / Vigencia: [2026-01-01, open-ended)

Date basis / Fecha base: question_date

Uploaded / Carga: 2026-01-02 | Status / Estado: READY

**1.** Applicability: For questions about current DEMO-market store practices, use the policy effective on the question date. Questions about historical practices require the relevant event date and support review when the scope is unclear.

**2.** Data handling: The fictional store uses name, email, shipping address, and payment reference to fulfill orders and provide support. Its demo policy retains order records for 12 months after purchase and does not store full payment-card numbers.

**3.** Customer requests: Account access and deletion requests require identity verification and a separate authorized workflow. The chatbot may explain the policy, but it cannot claim that it accessed or deleted personal data.
