1. Applicability: This version applies to DEMO-market refunds approved on or after 2026-01-01. The verified refund approval date selects the policy, not the purchase date or the date of the question.

2. Refund timing: After approval, refunds normally appear on the original payment method within 5 to 7 business days. This is an expected processing window, not confirmation that a particular refund was sent or completed.

3. Transaction status: Actual approval and payment status must come from an authenticated order or payment API. PDF retrieval cannot issue money, confirm a transfer, or bypass account verification.
